REVOLUTION

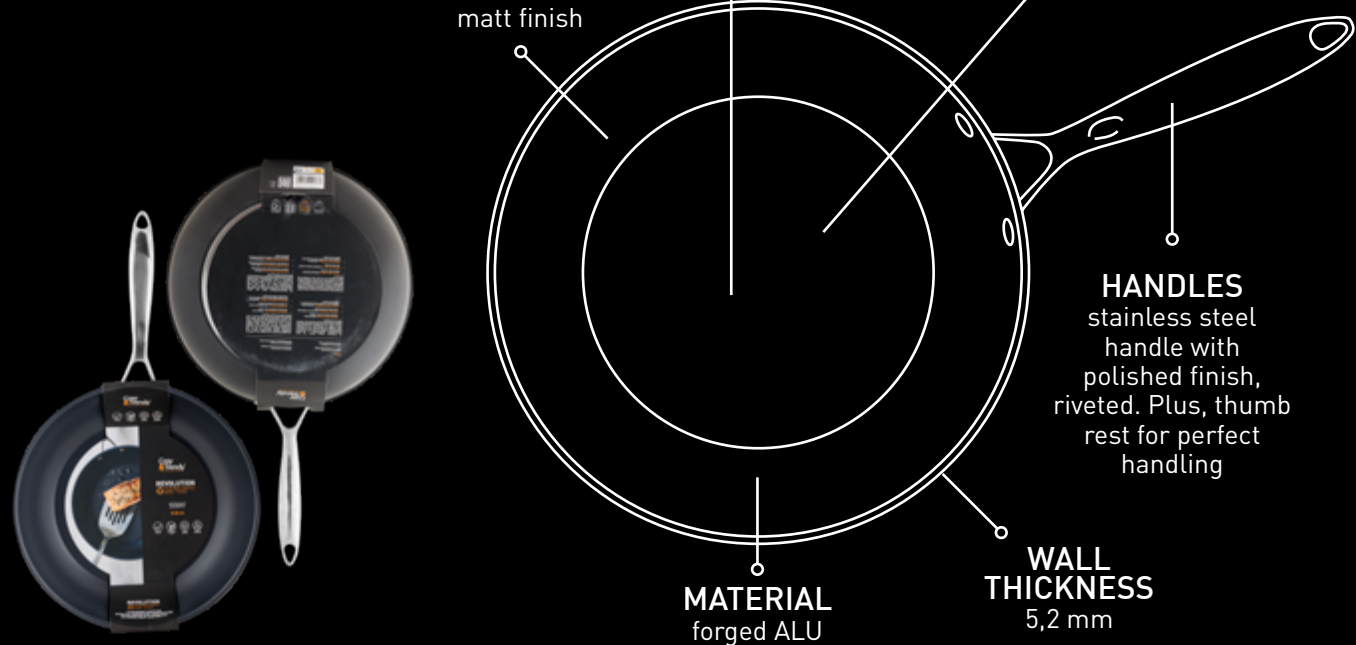

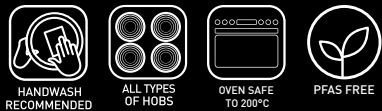

**THE FUTURE OF
NON-STICK PANS**

Introducing Cosy&Trendy's Revolution range, featuring cutting-edge plasma coating technology that raises the bar for non-stick performance. The ultra-hard ceramic layer with micropores offers unparalleled scratch resistance, maintaining a pristine finish for years of intensive use. Even steel sponges are no match for its 9H hardness, many times tougher than conventional PTFE coatings. Revolution pans derive their exceptional non-stick qualities from a thin film of oil that accumulates in the micropores, allowing food to glide effortlessly with minimal fat. These pans can withstand temperatures up to 500°C, ensuring perfect results whether you're searing steak on the stovetop or baking dishes in the oven. Best of all, the coating never flakes or burns, guaranteeing a safe, healthy cooking surface. Built to last and the ultimate investment for passionate home cooks who refuse to compromise on quality, durability or style. Experience the perfect blend of innovation and reliability in every delicious dish you create.
