TAILORED TO YOUR NEEDS

Thermos® pans result from a customer-focused design. We believe that using the best materials, thoughtful construction and maximum user-friendliness creates a kitchen experience you'll want to revisit every day.

DIDN'T FIND WHAT YOU WERE LOOKING FOR?

Do you have a creative idea or are you looking for a specific design? All pans can be configured to your specification: handles, colours, coatings, sets and packaging. All while preserving Thermos® quality.

THERMOCLAD, SIGNATURE STAINLESS STEEL 3-PLY

Precision and power in one pan. The 3-layer construction delivers fast, even heat and direct control. The PFAS-free hybrid ceramic non-stick coating ensures smooth cooking and easy cleaning. Professional look, designed for intensive daily use.

FOCUS ON QUALITY

- 3-PLY construction for precision cooking
- Responds quickly to temperature changes
- Professional look, long service life
- Robust design with riveted handles

NOVA, TWO-PLY: ALUMINIUM & SS 18/10

Nova combines speed and stability: an aluminium exterior for smooth heat absorption and a stainless steel 18/10 interior for durability. The matt, heat-resistant coating looks sleek and stays beautiful, while the perforated induction base ensures efficient heat transfer. Stainless steel handles with rivets provide confidence in daily use.

DURABLE DESIGN

- Aluminium exterior, stainless steel 18/10 interior
- Matt, heat-resistant finish on the exterior
- Responds quickly to temperature changes
- Suitable for all hobs, including induction

PRIME, 100% STAINLESS STEEL

Prime stands for pure reliability and control. The pans, made entirely from 18/10 stainless steel, provide a hygienic, durable cooking surface. The encapsulated aluminium core in the base ensures fast, even heat distribution. Stainless steel handles with rivets provide reliability during intensive daily use.

FOCUSED ON PERFORMANCE

- Entirely made from 18/10 stainless steel
- Sturdy riveted stainless steel handles
- Durable, hygienic and taste-neutral
- Stylish, timeless design
