# BLAZE

BUILT FOR FIRE  
POWERED BY GAS

With the Blaze, White Fire improves the well-known concept for outdoor cooking. You enjoy all the advantages of the classic White Fire - the large plancha surface, the well thought-out design, the solid European construction - but with a fire that is immediately ready for use.

Start it at the touch of a button. The heat builds up quickly and can be controlled precisely, without smoke or ash. The stainless steel plancha does not rust and is easy to maintain. The built-in drawer allows you to quickly remove grease and grill residues. Ideal for those looking for comfort without compromising on atmosphere, fire or taste.

Like the wood-fired models, this appliance is built in thick steel, with an eye for durability and detail. For those who want to combine efficiency with fire pleasure.
